ELECTRICAL

Utility service purchases include initial labor, placement and 24-hour power. The cost of each outlet ordered is a one-time charge for the entire event. There is an additional labor charge if utility services need to be moved after the initial installation.

Electrical ceiling drops and natural gas lines require an additional labor charge of \$288.86 (incentive rate) per booth.

RIGGING

OCCC aerial rigging services do not assemble exhibitor signs or structures. Before structures are hung by the OCCC team, they must be fully assembled. This can be done by the exhibitor or an appointed contractor.

To reserve aerial rigging services, you must order the Initial Rigging Labor Deposit. This deposit includes two hours of labor for a three-person aerial rigging team. If you need to reserve rigging equipment, please reach out to the OCCC Aerial Rigging Team directly via email at OCCC-Rigging@ocfl.net.
